

# 2020-2021 School Meal Guide

Nutrition Services wants to ensure all students receive daily school meals in a safe and comfortable environment so that they are ready to succeed in academic and social activities.

In order to achieve this we have made the following plans in conjunction with our district Onward plan and local health authorities.

## Food Access

We are dedicated to serving all students in the Five Star District. The following options are available to families:

- Students learning remotely will be able to visit any of the five comprehensive High School locations to access meals. For days and times visit [www.adams12.org/nutrition](http://www.adams12.org/nutrition).
- Students attending Learning Pods will have access to breakfast and lunch at their Learning Pod location.
- We will offer a limited variety of snacks for students to purchase at the Learning Pod locations.
- Students will need their district assigned ID number to access meals.

## Food & Student Safety Precautions

We have enhanced our Nutrition Services Food Safety Plan to ensure meals will be served to students as safely as possible. On the advice of local health authorities, we ask the following:

- Food sharing will not be permitted.
- Students will follow social distance guidelines when going through the cafeteria line.
- Masks are required by all students and staff.
- Hand sanitizing/washing will be required before entering the cafeteria

## Special Dietary Needs

Five Star Schools may accommodate students with special dietary needs if their allergy or other medical condition rises to the level of a dietary disability. For additional information, please visit [www.adams12.org/special-dietary-needs](http://www.adams12.org/special-dietary-needs).
